Models

## CONCEAL® Zipper Foot

This CONCEAL® Zipper Foot specially designed for Oscillating hook models, enables smooth and easy attachment of CONCEAL® zipper, which are often used in ready-made products.

\*CONCEAL is a registered trademark of YKK Corporation.

Part No. 202-475-002

### 1. What is CONCEAL® zipper?

CONCEAL® zipper features a thin, soft tape and is a discreet zipper that blends into the stitching.

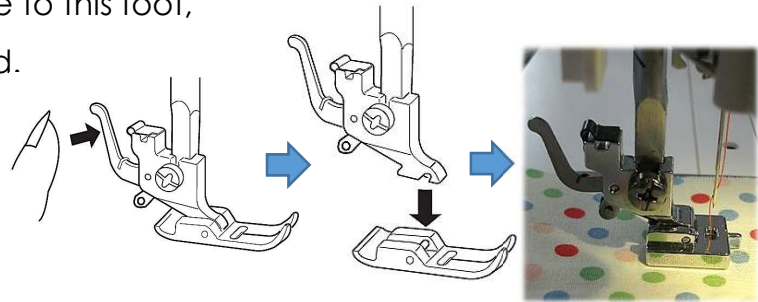

It is often used for products where the zipper should not be visible, such as women's dresses and skirts.

### 2. Easy to attach and detach

Since this is a foot only product, when replace to this foot, the foot holder does not need to be replaced.

After pressing the lever on the back of the foot holder to remove a standard foot, simply lower the presser bar to attach the CONCEAL® zipper foot.

### 3. Ability of left and right grooves

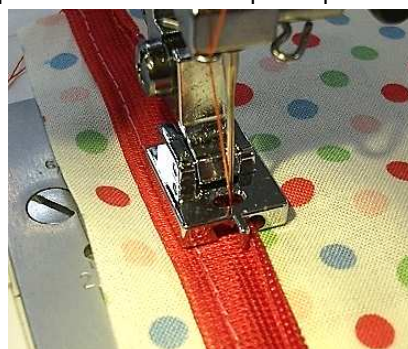

There are two grooves on the back side of the foot.

Each groove is to get the needle as close to the zipper teeth as possible, which this foot accomplishes by slightly unrolling the zipper just before the needle.

Once fitted, a well sewn CONCEAL® zipper will hide its open-parts.

Sew the zipper tape and the fabric using the left groove

Sew the zipper tape and the fabric using the right groove
