AcuStitch Ver. 2.20

for Windows 10/11

JANOME's
Patented Technology

Part No. 202-465-009

Two types of stitches have been added to the "Digital Ruler Work", this new feature makes it even more convenient and easy to use!

- ◆ The installation software can be downloaded from JANOME global site

Effective from Ver. 2.10, the online installation is available.

(DVD is not included in the package.)

It will be necessary to enter 12 digits* serial number in your first time installation.

(*Serial number is included in the package.)

download page](#)

- ◆ New Types of Stitches, "Zigzag Stitch" and "Triple Stitch"

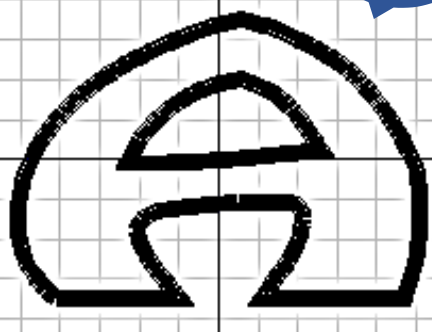

"Zigzag Stitch" and "Triple Stitch" have been added to the upper right part of the STX file selection screen that appears after selecting a VRW file. Simply click on the button for the stitch type of your choice to create the selected template with the optimal value of "Zigzag Stitch", "Triple stitch", or "Straight stitch". ("Straight Stitch" was the only available option in V2.10.)
