500E / 450E / 400E  
(incl. Limited Edition)

## SQ10b Hoop

The SQ10b Hoop is an optional hoop exclusively for Memory Craft 550E, 500E, 450E and 400E including "Limited Edition" models. This hoop is ideal for common / daily use designs such as petite emblem up to 100 x 100 mm.

Part No. 864-438-003

### Step 1

#### Machine Update

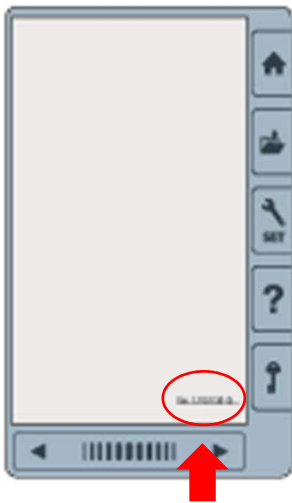

Please update your sewing machine to use the SQ10b Hoop.

Visit our website to see how to update your sewing machine from the following URL or QR code.

<https://www7.janome.co.jp/global/product/machineupdates/model-864-update/>

JANOME / Memory Craft  
550E/500E/450E/400E Machine Update

The update files are separated by your own sewing machine software version. Please turn on your sewing machine, and then check your software version type displayed on the LCD screen as left. you need to download each version up software up to your machine version

There are 3 type versions

- No alphabet at the last of version number like "Ver. 3.10 "
- Shown "USB-S" at the last of version number like "Ver. 1.10(USB-S)"
- Shown "USB-D" at the last of version number like "Ver. 1.100(USB-D)"

When you turn on the machine, these versions appear.

### Step 2
