Professional grade 1/4 inch seam foot

Achieve perfect 1/4 inch seam allowance along the guide of the foot.

A great tool for patchwork piecing.

As this foot is used together with the HP needle plate, it helps reduce fabric fluttering and enables more stable sewing.

machines

Point 01

Guide for aligning the fabric edge

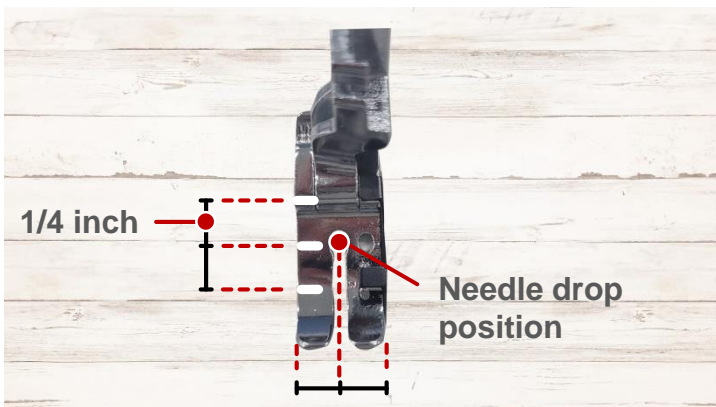

Align the fabric edge with the guide of the foot as shown. Sew while guiding the fabric edge along the guide of the foot. You can sew scant 1/4 inch piecing.

Point 02

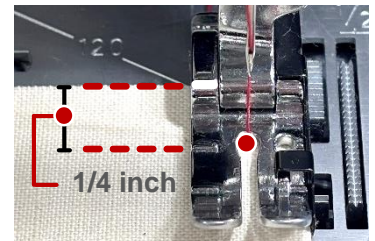

Useful markings for patchwork piecing

The foot has 1/4 inch markings at the front and back of the needle drop point as shown in. Use these markings as a guide to determine where to start and finish sewing.

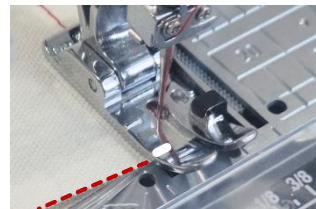

- Start sewing

Align the fabric edge with the back side mark.

- Finish sewing / Sewing the corner

Align the fabric edge with the front side mark.

Note

When using this foot, make sure to attach the professional grade needle plate HP (HP Needle Plate).

You can distinguish it from standard needle plate by the "HP" engraving.
