Total		Net Sales (Sales Composition)	7,999	10,481	2,481
		Operating Profit	118	809	690

*Operating Profit includes eliminations of intersegment transactions.

(4)-1 Sewing Machine : Regional Unit Sales

JANOME

- In North America, sales of high-value-added mid-range and high-end models were strong.
- In the challenging competitive environment of Europe, sales in CIS countries showed steady growth driven by the launch of new models that meet market needs.
- In Asia, sales of entry-level models were strong, particularly in India.
- In Japan, the new flagship professional-use sewing machine was well received.

*Europe includes CIS countries.

(4)-2 Industrial Equipment : Sales Results

[Million Yen]		FYE Mar. 2026 1Q	FYE Mar. 2027 1Q	Changes
Robot & Servo Press	Net Sales	782	724	-57
	Operating Profit	-61	-30	30
Die-cast	Net Sales	529	706	176
	Operating Profit	-103	-40	63
Total	Net Sales	1,312	1,430	118
	Operating Profit	-164	-70	94

- **【Robot & Press】** Performance remained sluggish due to the slowdown in capital investment for the Chinese and South Korean markets, which had been driving demand until last year.
- **【Die-cast】** Profitability showed signs of recovery driven by increased orders, adjustments to selling prices, and efforts to improve production efficiency.

Bobinage POP UP

Bobinage, our concept shop that offers a casual place to experience the joy of making, held traveling workshops in Fukui and Aichi prefectures during the first quarter. Every session was fully booked, and additional workshops are planned for the second quarter onward.

▲ Sakai Mishin Shokai (Fukui Prefecture)
2 days / 23 participants

▲ Oba Mishin (Aichi Prefecture)
1 day / 6 participants

New Model 「haute couture ecru 2000」 Launched

A professional-use sewing machine that achieves an industry-leading sewing speed of 1,650 stitches per minute and features a well-designed look. This flagship “all-purpose” model handles a wide range of materials, from lightweight to heavyweight fabrics, enabling creators to express their creativity. Sales have been strong since its launch in March through the first quarter.

▲ Well-received by distributors at the product launch
(Launch event in Bobinage Famille Mizoguchi)

Establishment of JIE-India New Branch

JIE-India, our industrial equipment sales subsidiary in India, is scheduled to establish its Pune Branch in September. This will be its third location in India.

- In our Mid-term Business Plan “Move! 2027,” we set out “Strengthening the Operational Base in India” as a key initiative.
- Jun. 2025: Increased the capital of JIE-India to establish a nationwide network of sales and technical service bases.
- Jul. 2025: Opened the Chennai Branch in Chennai, a hub for automotive-related industries as JIE-India's second base in India.
- Aug. 2026: Decided to establish the Pune Branch as JIE-India's third sales base to further strengthen sales support for automotive-related industries.

Business Philosophy

JANOME aims to promote people's creativity and contribute to prosperity all over the world.

JANOME works to improve society and culture by consistently providing valuable products and services.

Household Equipment Business

Net sales: 29,787 Million Yen

Since our foundation as Japan’s first domestic sewing machine manufacturer in 1921, we have provided high-quality, user-friendly sewing machines and a joyful and fulfilling sewing life using these machines to people around the world, as a leading company of home-use sewing machines.

Industrial Equipment Business

Net sales: 6,155 Million Yen

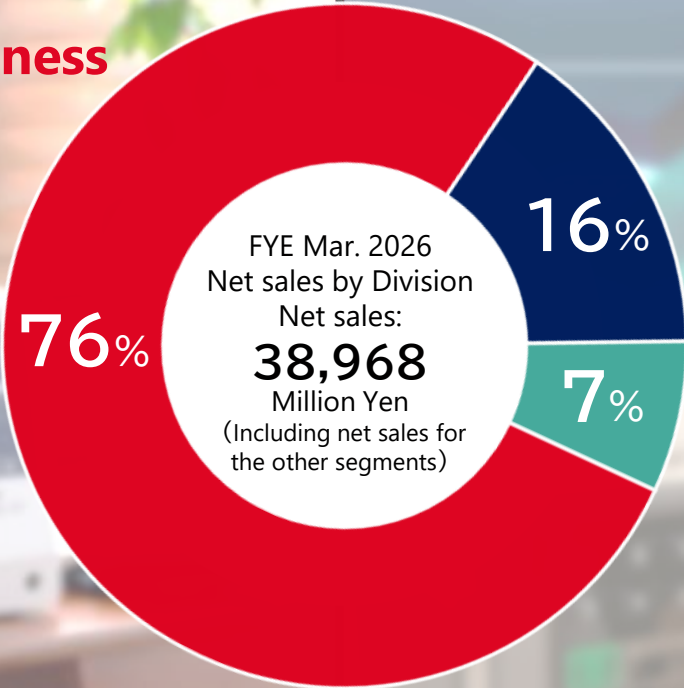

Our industrial equipment business began with the in-house development of manufacturing equipment for sewing machine parts. Since the launch of our servo press in 1984 and desktop robot in 1993, we have evolved by listening to the voices of our customers on the production line, earning a strong reputation with manufacturers around the world for high precision and user friendliness.

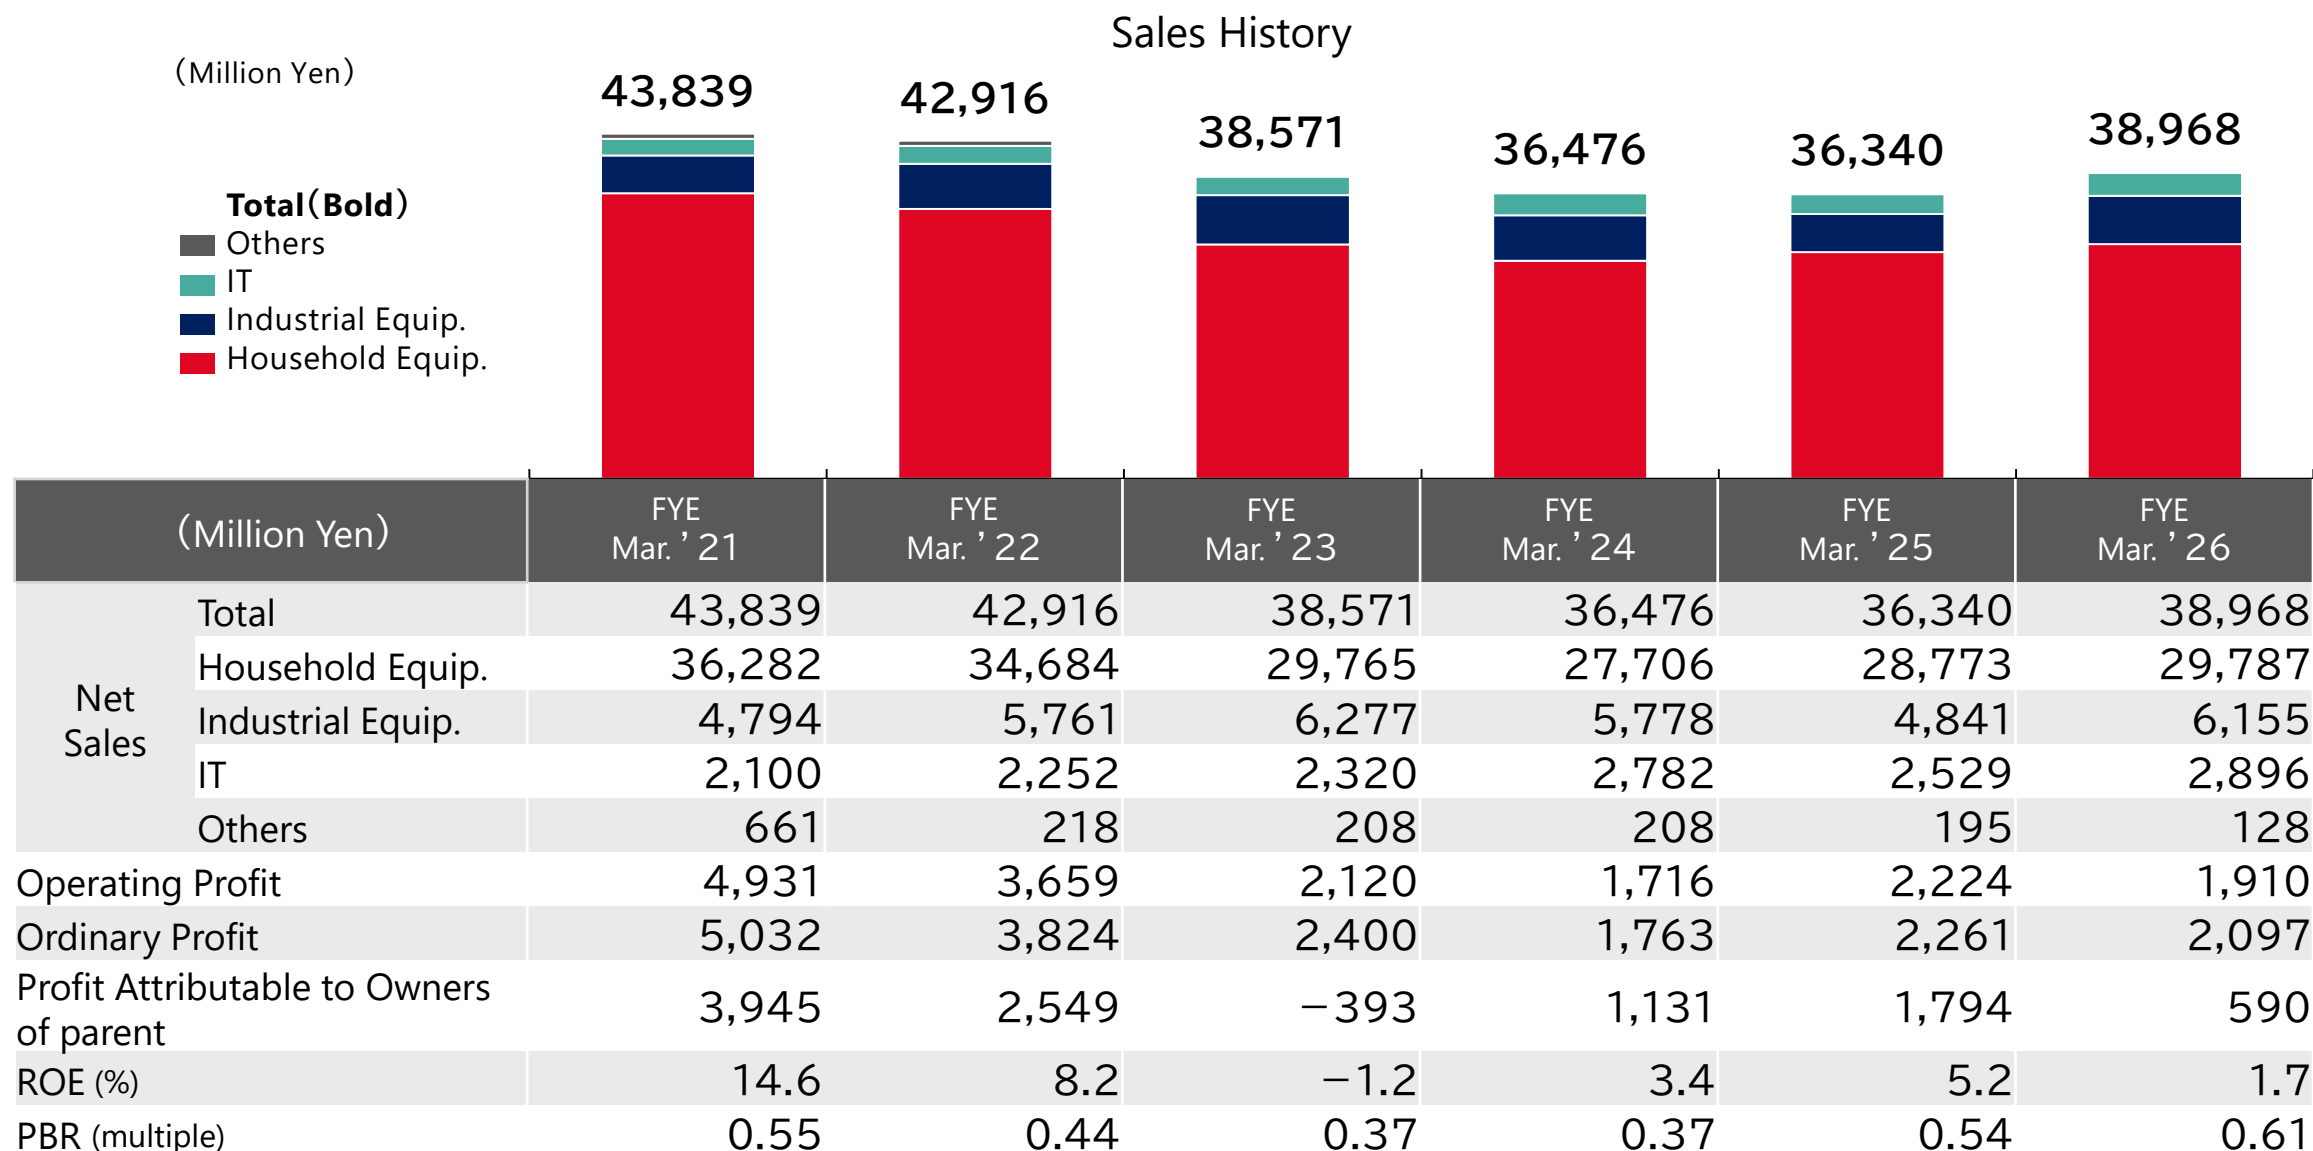

IT Business

Net sales: 2,896 Million Yen

In our IT Business, Janome offers IT software development, data processing and system operation outsourcing services. We aim to provide speedy, streamlined services in response to changes in the environment and corporate needs in today’s rapidly evolving IT society.

School Education

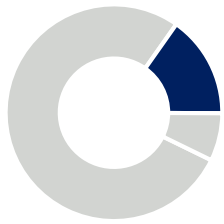

Initiatives in Key Markets

JANOME

In India, a key market, we have maintained a long-standing business partnership with USHA, a company affiliated with a local business group.

Promoting the transition from treadle sewing machines to light-alloy electric sewing machines.

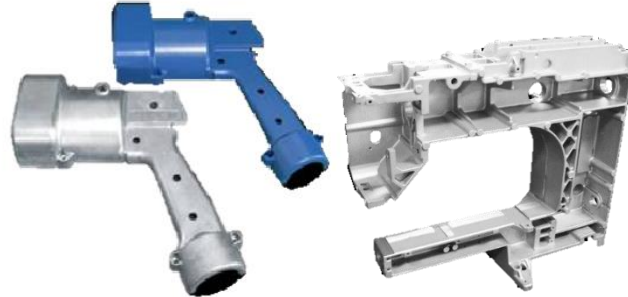

Industrial Equipment Business

JANOME

This document provides an overview of the robot and press business.

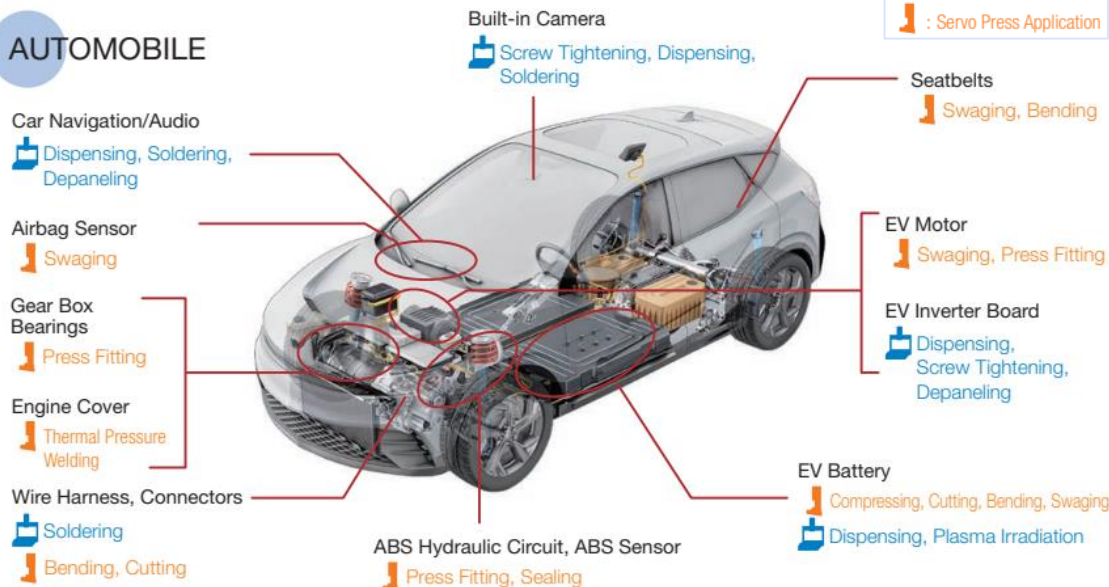

Robot & Press Business

Die-Cast Business

AUTOMOBILE

Strengths

- ▶ A pioneer in servo presses
- ▶ Reducing environmental impact and improving working conditions
- ▶ Easy to use, drawing on our expertise in home sewing machines
- ▶ Quality control with our own custom programming environment
- ▶ Streamlining the assembly process with dedicated software
- ▶ Global support network

Examples of Use in the Industry

Frequently used in assembly processes for relatively small parts.

Used in manufacturing sites worldwide, including those producing electric vehicles (EVs) and other automobiles, electrical and electronic equipment, and medical devices.

Automobiles

Medical Devices

Smartphones

Home Appliances

Food industry

Cosmetics

Motorcycles

Aerospace
