# MC15000 Version 2.11 Installation Instructions

This update is only for MC15000 owners.

Use a USB flash drive for the update. Before saving the update data onto the USB flash drive, formatting of the USB flash drive is recommended. (Before formatting, carry out a data back-up.) Please refer to "how to format a USB flash drive".

Update Method

1. Download the file from the website and save it on your PC.

2. Open the unpacked file and click "UpdateMC15000v211".
    Please refer to "how to unpack a zip file".

3. Double click on "**862UpdateTool.exe**".

4. The **System Update for MC15000** will open.
    Click "Instructions" and operational directions will be displayed.

5. Follow the instructions and carry out the update.
